REGISTRATION AND PAYMENT

- For event registration, please use our Trybooking link: <https://www.trybooking.com/CSEVY>
- **Make sure to register by Monday, 10th June 2024.**
- We kindly request that the responsible teacher registers all teachers and students as a single booking via Trybooking.
- Teachers are reminded to carefully register students under the correct learner category, with the registration process prompting the selection of year level and language category.
- After receiving the registration information, CLTASA will email an invoice to the school teacher for all registered students.

ELIGIBILITY

- The OZCHIN Quiz Bowl welcomes students in Years 7–12 from South Australian Public, Independent, Catholic, or Community schools with an interest in Chinese language and culture. The competition is designed for both Second Language Learners and Background Language Learners (students whose first language is not Chinese but who have a Chinese cultural or linguistic background).
- Country school students are particularly encouraged to participate through Zoom. Since the event does not include dinner or other services for online participants from country schools, student registration is complimentary. (Zoom information will be distributed to teachers after they register.)

QUIZ FORMAT

Hybrid Questioning Approach

Our quiz combines traditional paper-and-pen questions with online queries, engaging participants in both individual and team challenges. Comprehensive revision booklets will be distributed to teachers or directly to students if email addresses are provided during quiz week.

Equitable Competition Structure

To ensure fairness, we cover the same topics for Second Language Learners and Background Language Learners across Years 7–12, adjusting difficulty levels accordingly. The **Individual Challenge** is divided into four categories for fairness:

- Years 7–9 Second Language
- Years 10–12 Second Language
- Years 7–9 Background Language
- Years 10–12 Background Language

Part 1: Chinese Knowledge Written Quiz (15 minutes)

Students complete a set of written questions within 15 minutes. Teachers will collect and manually grade the answer sheets.

Part 2: Cultural Knowledge Quiz (20 minutes)

Students use a mobile phone or computer to participate in a Kahoot quiz, focusing on cultural knowledge. Scores are calculated automatically.

Questions in both parts are divided into four difficulty levels to ensure fair competition. Teachers must classify student registrations by year level and language background on Trybooking.

The highest total score in Parts 1 and 2 determines the winner of the individual challenge. Gold, silver, and bronze awards, along with other individual awards, will be announced the same evening.

Part 3: Comprehensive Knowledge Competition (30 minutes)

Teams of 2–4 students, including both second language and background language learners from Years 7–12, participate in a mixed school buzzer quiz.

Teams may use a mobile phone or computer.

The team with the highest score wins first place, with awards also given to the second and third-place teams.
